A LETTER OF CONDOLENCE  
123 1/2 North Greenwood, Tulsa, Oklahoma, August 2nd, 1926.

MRS. LONDON DEVOE, Pasadena, California.

Dear Madam, Friend, Family and Wife: Your telegram under date of August 1st, 1926 brings to me the terrible intelligence of the tragic death of a friend, christian, gentleman, an American citizen by birth and standing, a proud father and a devoted husband, which occurred in your Pasadena home under gray and golden skies. I say tragic death, because he died young, any death among the young and youthful is tragic. We are all born to die, after an individual journey all the way from the cradle or from life's brilliant dawn to the twilight of its evening sunset and then shakes off this mortal coil, lies down, using his burdens for a pillow and sleeps time away, we should not grieve, for to the aged death is his last and best friend. Your husband was an unusual man, he was my friend, one that never changed, he never consorted with my enemies, after I exhausted my medical skill trying to effect a cure for him, on finding that it was but superhuman in this climate, I advised that he go West. He had so accumulated wealth and lived a happy, contented life. His life was a model one, he lived for his family and friends and died among those he loved and labored to make happy.

You are now a widow, made so by the only true divorce Judge. You have a name to protect, children to labor and live for and children to live for you. Words from a friend, or epithets from the wise cannot replace the flower which the cycle of time hath clipped from the garden of your life.

With pathetic regards, I beg to subscribe myself as your friend.

Very respectfully,  
M. K. WAKEFIELD, M. D.

ELECTRIC RAILWAYS -- THE HUB OF PROSPERITY

Whether you realize it or not, the electric railway is the hub around which the whole development of your community revolves.

The electric railways render a service that is fundamental. They afford a transportation agency around which modern cities are built.

They are at the service of all the people all the time and in every kind of weather.

Directly or indirectly, every individual of the community is benefited by good service. Your business, your pleasure and your income are advanced because of the stimulus that the operation of cars adds to industries. Your real estate holdings are likewise enhanced in value.

When you boost your local transportation company you are boosting your own prosperity.

NOTE OF REGRET  
The members of the Achievement Club deeply regret the death of the late Miss Ruth Smith.

Miss Smith was elected as our Secretary on the first of this year. Her efficiency as such was highly appreciated by the entire club. It was through her winning personality that she successfully welded her influences through the entire membership of more than three clubs as well as other organizations. Her level of sociality was very conspicuous.

Miss Smith will be missed greatly by each member of the club. The Achievement Club also regrets not having been notified of her death until after the funeral, therefore we were unable to participate in the funeral services. We hope, however, that in the future the club will be given ample notification.
